

## Information concerning recent cyber-incident

Paris, 25<sup>th</sup> May 2022

On Friday May 20<sup>th</sup> Loxam's IT detected a cyber-attack.

In response, all the group's cybersecurity procedures were immediately activated in order to stop the attack spreading and to protect the Company and its stakeholders. In spite of a temporary shut down or slowdown of our functions, business activity has been maintained with no disruption to our counterparties. Today the Company has resumed its activity as normal.

Investigations and corrective measures are continuing, with the help of forensic experts, in order to completely circumscribe the extent of this cyber-attack.

Loxam would like to thank all of its employees for their commitment and reiterates that the security of its partners and its data has always been and will remain its priority.
